

CHARLOTTE MAY

Android Developer

+1-914-345-5530 • help@enhancv.com • github.com/xxxxxxx • Detroit, Michigan

Summary

I have 6 years of experience in Android Development. I have worked with different teams, including design and architecture. My strong points include Android Studio, Google APIs and Java. I build applications using clean code and preserve the structured organization of app code by following best practices.

In my latest role I enjoyed supremely mentoring & building up the skills of the junior developers on my team - and I look forward to a new role where I will be able to spend even more time working with my team.

Experience

Techbia

Senior Android Developer

Detroit, Michigan

2017 - Ongoing

Techiba brings the latest advances in AI to Education to help improve the lives of teachers and ultimately the learning outcomes of their students.

- Lead by example, building up the skills & productivity of 3 junior engineers on my team through 2 rounds of promotions.
- Worked on 2 android apps at the forefront of e-learning.
- Proposed & management the implementation of new deploy process that saved hundreds of hours per year for the dev team.

2005 - 2009

Strengths

Delivering Results

Relying on a mix of problem-solving and time-management skills

Creative Skills

Use my creative thinking and resourcefulness to come up with the most optimal and original ideas. Always keep in mind the limitation of personal capabilities to implement the ideas.

Life-long Learner

Never done learning and always seeking to improve myself. Curious about new possibilities and taking action to explore them.
